REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record, including Peterson, Otten et al., and the Costa et al. family of references, fail to teach or suggest an assembly comprising both an external sleeve and an internal sleeve as specified in the claimed combination or method.

Peterson (US 4,388,971) teaches an assembly comprising a first tubular member, an external sleeve having a first and second box member, and a second tubular member. However, the reference fails to teach or suggest an internal sleeve that receives the ends of the tubular members and having a flange that engages the tubular members' pins and the external sleeve as called for in the claimed combination or method.

Otten et al. (US 6,516,880) teaches an assembly comprising a first tubular member, an external sleeve (coupling 18) having a first and second box member, and a second tubular member. The reference does teach an internal ring 25. However, the reference fails to teach or suggest an internal sleeve that receives the ends of the tubular members and having a flange that engages the tubular members' pins and the external sleeve as called for in the claimed combination or method.

Costa et al. (any of the family of references including US 2006/0113085) teaches an assembly comprising a first tubular member, an external sleeve 16 having a first and second box member, and a second tubular member. The reference further teaches an embodiment having only an internal sleeve (Fig. 12).

However, the reference fails to teach or suggest an embodiment that includes both an external sleeve and an internal sleeve that receives the ends of the tubular members and having a flange that engages the tubular members' pins and the external sleeve as called for in the claimed combination or method.

Therefore, none of the references alone or in combination, teaches the invention as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
